

2010 Materials Teachers Camp FINAL WORDS

ASM Materials Teachers Camp Board, UNO Professors and Students, NACE New Orleans Board, ASM International Foundation, NACE International Foundation, ASM Materials Teacher Camp Instructors, ASNT, API, COPAS, SPE, HCIA and so many other supporters, speakers,

Thank you for all for all you have done to make this second ASM Materials Teacher's Camp a success. Our numbers were down, but the learning was definitely up. I believe we have a number of teachers in our community that have been inspired to teach science, technology, engineering and math (STEM) encouraging their students to apply themselves towards science and engineering.

Here is the final Materials Teachers Camp Schedule which includes a list of the teachers. I am hoping that our teachers will be able to network with the many resources we have provided them through our organizations and take advantage of the Greater New Orleans Science and Engineering Fair.

Please put the last full week of June 2011 on your calendar for our Camp next year.
